Jason,

Attached is the Verify documentation for the Mercedes 2009 Common Section. The Verify document search is not always the easiest to use.

Let me know if this is not what you were looking for.

Sincerely,

Dan

**Subject:** Light-duty Daimler common certification document

Dan,

I'm looking for Daimler's common certification application documentation for MY2009. It more than likely was submitted in 2008, which I assume was in another system besides Very. I was able to find the other common files in Very for the other years. I am trying to complete a table with MB Vehicle / Engine Code for R320, ML320, & GL 320. Google / Wikipedia is providing me with the three digit code, but I would like to use the entire code from the certification application. 9MBXT03.0U2A is the test group that I am interested in. Thanks for your assistance
